ICRA: Which One Are You Looking For?

THE DIRECT ANSWER

ICRA means three completely different things depending on who you ask — and if you landed here from a search, there's a good chance you wanted one of the other two. No wrong answers here; just pick your door.

1. INFECTION CONTROL RISK ASSESSMENT (THIS SITE)

- In healthcare construction, ICRA is the Infection Control Risk Assessment — the process hospitals use to protect patients from construction dust, mold, and airborne pathogens during renovation. It classifies work (Type A–D) and patient risk to determine precautions (Class I–V).

2. ICRA LIMITED (INDIA'S CREDIT RATING AGENCY)

- ICRA Limited — the Investment Information and Credit Rating Agency of India — is one of India's major credit rating agencies, established in 1991 and majority-owned by Moody's.

FIELD QUESTION

What does ICRA stand for?

Three things: (1) Infection Control Risk Assessment — the hospital construction safety process; (2) ICRA Limited — India's credit rating agency (Investment Information and Credit Rating Agency of India), majority-owned by Moody's; (3) the IEEE International Conference on Robotics and Automation.
