Emergency Preparedness: Expert Video Analysis [Video Resource]

THE DIRECT ANSWER

MCI readiness rests on practiced HICS leadership, realistic surge plans, and EMS coordination—not plans left in a binder. This UC Health training video shows command, patient flow, and communications under stress; use it to test whether your egress paths, utilities, and drill schedule would survive a real influx. Home / Emergency Preparedness / Video Emergency Preparedness: Expert Video Analysis [Video Resource] Featured video: Mass Casualty Incident Training: Behind the Scenes with UC Health Channel: UCHealthCincinnati Video published: 2020-01-30 YouTube views (public counter): 61,154 Video source: Mass Casualty Incident Training: Behind the Scenes with UC Health.

WHY THIS MATTERS FOR FACILITY MANAGERS

- MCIs compress decision time while demand for space, staff, power, medical gas, and clean utilities spikes. CMS emergency preparedness Conditions of Participation still require an all-hazards program, trained leaders, documented communications, and regional cooperation.

KEY MOMENTS TO WATCH

- Approximate segments; use YouTube chapter markers when shown on the player.

FIELD QUESTION

Where does this come from?

This sheet distills the full Healthcare Facility Hub article linked below, which carries the complete text, references, and sourcing.

Approximate segments; use YouTube chapter markers when shown on the player.

Caution: codes, editions, and targets vary by facility and authority having jurisdiction (AHJ). Figures marked as common practice are facility targets, not code requirements. Confirm against your AHJ and the current code text before acting.
